Important notes for Sunday

Happy Palm Sunday!

Producer: I sense a high level of spontaneity for the response, be prepared to lead the team through that!

GFX: we have built the LED wall into our lighting color transition cues. You and the lighting operator will both have two second transitions. Ensure that your cues are timed with eachother.

There are 66 slides in the message.

Video director: we have had focus issues with the new cameras, make sure that the video looks sharp. It is weirdly hard to tell if it's in focus or not. Camera 4 (handheld) will be AB for the 9am and 10:30, Georgia will shadow and train for the 10:30 service and then operate during the 12.

Call time is 7:00, we will have our meeting at that time. As mentioned in our new guidelines, if you are in the sanctuary please where black to limit visibility!

We will start our full rehearsal at 7:45.

Let's kill it yall!
